MINISTERIAL FOREWORD

Thank you for your interest in applying to be the next Chair of HS2 Ltd – a role that will play a vital part in the development of HS2, a once-in-a-generation investment in our country’s transport infrastructure. This application pack contains information about the role of Chair, and details about the selection process.

In the Chair, exceptional leadership and brilliant communication must go hand in hand with a proven track record in delivery, to help unlock the multiple benefits of HS2 and the great potential of the many people working on this project. The right candidate will have the opportunity to not only lead a project of unprecedented size – but to inspire others as we embrace lasting change for this country.

From boosting productivity to driving decarbonisation, HS2 remains at the forefront of our plans to fire up economic growth. Indeed, the transformational potential of the project is unparalleled. By creating thousands of apprenticeships and tens of thousands of skilled jobs, HS2 is at the heart of our plans to build back better from the pandemic, providing certainty at a time when people need it the most. Ultimately, this railway will bring our biggest cities closer together, providing a low-carbon alternative to cars and planes for many decades to come.

I wish you luck on your application and look forward to welcoming the new Chair to the Board.

Andrew Stephenson
HS2 Minister
Dear Applicant,

As Ministerial Diversity Champion for the Department for Transport (DfT), I want our public bodies to benefit from a wide variety of ideas, experience and backgrounds. That means we need really diverse candidates who can bring wide experience and dynamic ideas to our boards.

We need our appointments to be open to fresh talent, expertise and perspectives, to help us better understand the needs of the communities we serve. That is why we are committed to making our appointments more diverse in terms of ethnicity, gender, life experience and background.

I would like to encourage you to consider applying for this role if you are interested in public appointments and the work of DfT. Our dedicated DfT Public Appointments Team and Korn Ferry would be happy to talk through the process and answer your questions.

We look forward to receiving your application.

Baroness Vere
Parliamentary Under Secretary of State for Transport
ORGANISATION BACKGROUND

This project is delivered by HS2 Ltd, a company limited by guarantee, wholly owned, controlled and funded by the DfT. The Company has a single shareholder in the Secretary of State for Transport and is classified as a Non-Departmental Public Body (NDPB) by the Cabinet Office.

HS2 Ltd’s responsibilities include developing sustainable proposals for the route. It is also responsible for working with the DfT to secure the necessary Parliamentary approvals and powers to undertake the development, construction and operation of the railway.

HS2 is a state-of-the-art, high-speed railway line critical for the UK’s low carbon transport future. It will provide much-needed rail capacity across the country and is integral to rail projects in the North and Midlands, thereby helping to rebalance the UK economy.

In linking up London, the Midlands, the North and Scotland, HS2 will serve over 25 stations, including eight of Britain’s 10 largest cities and connecting around 30 million people:

. The high speed network is being delivered in the following phases:

- **Phase One**, between London and the West Midlands. The Phase One legislation received Royal Assent in February 2017, and Enabling Works have continued throughout the year including site clearance, ecological surveys and ground investigations.

  Phase One has a funding envelope of £35bn-£45bn and will open between 2029 and 2033. Main Works Civils Contracts (MWCC) were awarded to four joint ventures (JVs) in July 2017 and Notices to Proceed were issued to authorise Main Civils Construction Works to commence. Construction partner contracts have also been awarded for the design and construction of Euston and Old Oak Common stations; and
- **Phase Two** infrastructure is being delivered in two parts: the West Midlands to Crewe section (Phase 2a), with timescales to be scheduled to align more closely with Phase One, and the remainder of Phase Two, Crewe to Manchester and the West Midlands to Leeds (Phase 2b), is currently anticipated to open between 2036 and 2040.

The Phase 2a Bill received Royal Assent in February 2021. Government has instructed HS2 Ltd to progress development of a hybrid Bill for the western leg of Phase 2b, connecting Crewe to Manchester.

When the new HS2 railway is finished, it will deliver the necessary infrastructure for the full high speed network and will integrate with the existing rail network to provide a seamless railway experience for passengers travelling beyond HS2 stations.

HS2 will therefore significantly improve connectivity in the North and Midlands and will also integrate the existing network serving stations into Scotland, creating 500,000 extra jobs and 90,000 homes around HS2 stations. The main benefits of HS2 include:

- **Capacity** – taking inter-city trains off the existing rail network will free up more space for commuter and freight services, helping to relieve overcrowding and take lorries off the road;

- **Connectivity** – better transport links between our cities and regions is bringing more investment to the Midlands and North, helping to level up the country; and

- **Carbon** – HS2 will be the low carbon option for long distance travel, emitting 17 times less carbon than the equivalent domestic flight and 7 times less carbon than the equivalent car journey.

More information on the full scope of the important and varied work, as well as the HS2 Ltd's people, can be found here: [https://www.gov.uk/government/organisations/high-speed-two-limited](https://www.gov.uk/government/organisations/high-speed-two-limited)
